EDU-GATE

Educational University GATeway To Enhance Innovative E-Learning Capabilities, Resilience And New Best Practices

The Final EDU-GATE Conference

On the 08th of June was organized the last transnational partner meeting and the Final International Conference. The events took place in Sofia, Bulgaria and were organized and hosted by the European Center for Quality. During the TPM consortium partners discussed the finalization of the project and the remaining reporting activities as well as financial issues and topics.

During the EDU-GATE Final Conference all consortium partners presented themselves and their organizations. Special sessions were dedicated to the project objectives, goals and results. All Intellectual outputs and deliverables were introduced to the audience, including the countries research reports, online training curriculum, learning contents and the 12 learning modules, as well as the integrated online platform. During the conference Dr. Hristo Chukurliiev, who was special guest, gave a speech on the topic "The future of e-learning". The event concluded with a cocktail during which participants had the possibility for networking.
